BEFORE

Our #1 goal is simple: leave every client happy and exceed their expectations. To us, a project isn't truly complete until we've accomplished that.

AFTER

One of the greatest compliments we can receive is when a client trusts us with another project—and then another. Those long-lasting relationships are at the heart of why we do what we do, the way we do it.

This recent project in Belleville is a perfect example. Our relationship with these homeowners began in 2019 with a roof replacement. Since then, they've welcomed us back for new windows, a kitchen remodel, additional interior renovations, and now, a beautiful new maintenance-free deck!

This deck truly ties it all together. What began as two separate, aging wood decks has been transformed into one spacious wraparound outdoor living area, a natural extension of their home with plenty of room to relax, entertain, and enjoy their beautiful property.

Built with TimberTech decking, the new space delivers the warmth and beauty of wood without the ongoing maintenance, giving these homeowners more time to enjoy their outdoor space and less time worrying about upkeep.

From the roof to the windows, the kitchen to the deck, we're incredibly grateful to have played a part in transforming this home over the years. But even more meaningful is the trust these homeowners have continued to place in our team. It's relationships like these that remind us why we love what we do.

Super Service

Roofing crew was super fast and accommodating. Consulted me about any changes or improvement ideas they had. Even did some significant paint touchups where needed. Shout out to Rick B. Crew leader- he stayed about 3 hours after crew left to make sure everything was cleaned up. Cost was shocking at first but work and whole experience was so much better than previous roofing projects.

We are very happy with the work that Frey Construction did for us. They made and installed four custom windows. Brandon explained the options to us in a clear and helpful manner. We thought it would take 2 days to do the install but John and his crew of Robbie, Matt and Dan were efficient while not compromising quality of work. Robbie even came back the next morning to make sure the trim and other details were finished up right. We are extremely pleased with the look and feel of our new windows!

Frey Construction completed work on my home due to the Spring hail storm. The 3 teams that worked on my home, roofing, gutters, and siding, were all professional, courteous and experienced. The siding team of Tim, Ben, Robbie and Kade, were all very patient with me answering all of my questions. I am very satisfied with the final results, and would highly recommend Frey Construction.

Nancy Bingham, Middleton

Tim and Ben did an excellent job with Vinyl siding tear down and replace on our home. Great attitudes, gave overview of work they were going to do and kept us informed throughout the entire project. Highly Recommend.

Christopher & Patti Kern, Middleton

Like to thank Alex the sales consultant he was are first contact with your company and helped navigate the hail damage to our house. Thanks JJ and your crew for the siding job you did on our house. Also, a big shout out to Tim and Matt for the window replacement in our garage. I don't want to forget the gutter replacement people either. Your attention to detail and my endless questions that were answered made for a great experience with your company. One other person I want to thank is Ashley in the office for keeping me updated and scheduling people. She is like that glue that kept this project on schedule. You cannot go wrong with this company. They work as a team and results are excellent.
